## Hilton's Global Week of Service

Written by Carrie Holder, Director of Human Resources, Doubletree by Hilton, Denver Tech Center

As part of Hilton's Global Week of Service, a worldwide initiative where each Hilton hotel supports their local community, the Doubletree by Hilton Denver tech Center created learning opportunities for local youth on November 19th.

In partnership with Arapahoe/Douglas County's "Youth in the WORKS" team, we developed and hosted a one-day boot camp to provide youth an opportunity to learn the business. With 34 kids aged 16-21, our program included a Hotel 101 presentation, hotel tour, job shadowing, group luncheon and a hospitality relay. Thanks to a handful of managers who participated in the relay which included the following stations: potato peeling, animal towel making, banquet tray carrying, vacuuming and mocktail making. We were careful to keep score based not only on timing but also quality by having the judges at each station assign a QA point if tasks were completed as instructed. What a rewarding experience!
