

Dear Job Seeker,

Arapahoe/Douglas Works! is here to help you minimize the impact of your recent job loss. We are offering Rapid Response Workshops monthly. These workshops give you information about many of our no cost services that may help you navigate this difficult time.

- Learn where to apply for Unemployment Insurance with the State.
- Find out more about conducting your own job search.
- Discover our free virtual workshops on Resume Preparation, Interviewing Skills, and more!

At the end of each workshop, we will try to offer an opportunity to connect you with a featured employer that is hiring now for multiple positions. We will share all of the links to the information we cover during the workshop in a follow-up email.

Registering to attend this workshop counts as a work search activity for unemployment purposes, only if you actually attend the workshop. As a courtesy to others in the workshop, please be prompt.

Please click on the date below to register. You will receive the Zoom meeting link and call in number. A computer is helpful to view the presentation, but you do not need a computer or a Zoom account to attend.
