GEOGRAPHICAL AREA

The geographic area for this industry profile includes the 13 counties that make up Colorado’s Urban Front Range.

The geographic region includes the following metropolitan areas:

- Boulder
- Colorado Springs
- Denver-Aurora-Lakewood
- Fort Collins
- Greeley

In 2021, this thirteen-county region employed nearly 2.6 million people across all industries, and made up over 85% of Colorado’s total employment.

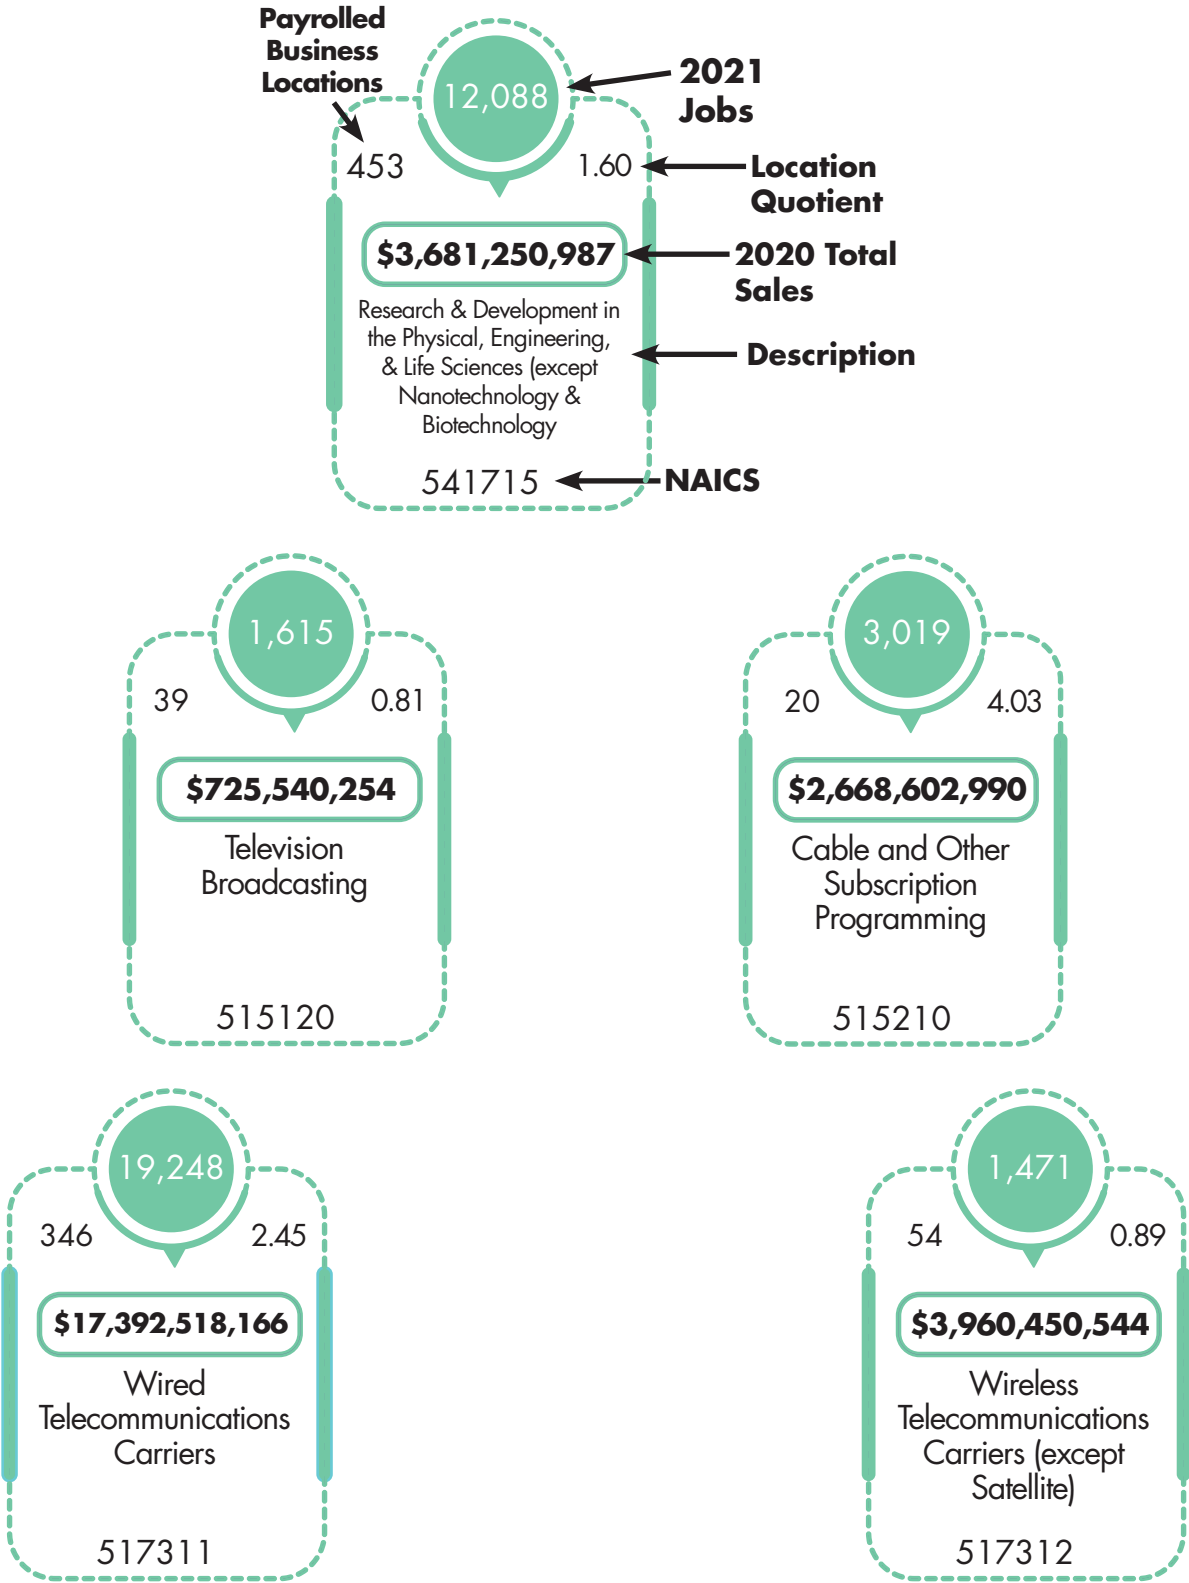

In 2020, the gross regional product (GRP) for Colorado’s Urban Front Range was \$312.76 billion, which made up around 1.7% of the national GRP. GRP is the total market value of all goods and services produced in the region.

INDUSTRIES MAKING UP THE SECTOR

The Broadband Sector employs 26,297 people in 527 payrolled business locations along Colorado’s Urban Front Range. In 2021, the sector had \$25.3 billion in sales, and contributed \$14.3 billion to the region’s Gross Regional Product. The region’s geographic location and extensive infrastructure ensures a strong global supply chain, and a diversified business climate. In addition, ready access to highly skilled workers and world-class research institutions offers employers in the sector many advantages in a global economy.

Note:
Location Quotient is a measure of the employment concentration in any given industry relative to the national average.

BROADBAND

INDUSTRIES MAKING UP THE SECTOR

BROADBAND

EMPLOYMENT CONCENTRATION MAP

Source: EMSI Burning Glass

EMPLOYMENT CONCENTRATION

The Front Range region is a national hub for broadband, with employment in the sector 2.47 times more concentrated than the national average. The highest concentrations are in cable and other subscription programming (4.03 times the national average, and wired telecommunications carriers (2.45 times the national average).

Note: A supplement is any kind of employer paid benefit beyond wage or salary.

Jobs and Average Earnings by County

WHERE CORE WORKFORCE LIVES

Every industry sector has a group of occupations that it needs to produce its good or render its service. This is called a staffing pattern, and these staffing patterns include management, business and financial occupations, administrative and support occupations, and core occupations.

Core occupations in the Sector include some installation, maintenance and repair occupations, and production occupations. This map shows where the core workers in the industry live (orange) and where they work (blue).

For this industry, the core occupations are defined as follows:

- Computer & Mathematical
- Installation, Maintenance, & Repair
- Sales & Related

County	Net Commuters	Resident Workers	Jobs
Denver	32,812	54,192	87,004
Arapahoe	8,918	50,582	59,500
Boulder	8,507	26,743	35,250
Broomfield	2,324	7,689	10,012
Gilpin	(78)	254	176
Clear Creek	(104)	321	216
El Paso	(319)	45,523	45,204
Teller	(786)	1,458	672
Larimer	(1,118)	18,821	17,704
Adams	(8,512)	30,241	21,729
Weld	(9,970)	18,049	8,079

BROADBAND

HISTORICAL TRENDS & GROWTH

- Over the last decade, employment in the Broadband Sector decreased by 2,138 jobs, an annual growth rate of -0.86%.
- The number of establishments decreased annually by -1.0% over the same time period, moving from 558 in 2011 to 509 in 2020.
- Average worker earnings in the sector, which includes wages, salaries, and compensation, grew from \$111,312 in 2011 to \$141,459 in 2020, an annual growth rate of 2.7%.

Historical Trends

Historical Growth

BROADBAND

PROJECTED GROWTH

The Broadband Sector is expected to decline at an annual rate of 0.4%, with the number of jobs decreasing to 25,919 by 2025. The Urban Front Range continues to be a national hub in several sector industries with overall employment concentration in the sector as a whole at 2.47 times the national average.

Note:
Location Quotient is a measure of the employment concentration in any given industry relative to the national average.

COMPETITIVE WAGE ANALYSIS

Due to the timeframes in which wage data is collected and collated, Colorado’s 2022 minimum wage of \$12.56 per hour may not be accurately reflected in some of the wages listed in the table. House Bill 1210, passed in late 2019, has allowed local governments to set higher wages. These municipal minimum wages will also not be accurately reflected in some of the wages listed in the table.

TOP ONLINE PROFILES & REGIONAL BENCH STRENGTH

EMSI Burning Glass has access to over 102 million online resumes throughout the United States, and offers analytical data on those profiles. This table shows online profiles of people working in the Sector that have been updated at some time in calendar 2021. While not all of these people may be presently looking for work, the fact they have recently updated their online resumes suggests they may be open to new opportunities.

Occupation	Profiles	Percent

STRATEGIES FOR MAINTAINING PRODUCTIVITY & OUTPUT

This section explores various options and resources that can be used to leverage scarce labor. The table immediately below shows hires, separations and turnover rate for the top 20 occupations in the sector (2020).

- There are generally five strategies an employer can use to attract workers:
1. Offer more money and/or signing bonus (this gets new hires in, but does not necessarily keep them there),
 2. Hire remote workers for those functions that can be filled using virtual technology.
 3. Invest capital in automation to leverage current labor productivity.
 4. Work with local K-12 and postsecondary educators to expose students to career pathways in the sector.
 5. Work with the local workforce system and its partners to seek out and train hidden talent through internships and apprenticeships.

DEMOGRAPHICS

Comparative Retirement Risk

The Sector has lower retirement risk, with 3.3% of its labor force aged 65 or older, compared with 6.5% for all sectors in the region.

Comparative Racial & Ethnic Diversity

The bar graph below shows the racial and ethnic diversity in the Sector compared to all sectors in the region.

Comparative Gender

The figures below show the gender diversity in the Sector compared to all sectors in the region.

BROADBAND

REMOTE WORK POTENTIAL

This table is customized to the sector using its entire staffing pattern along Colorado's Urban Front Range. It uses data from EMSI Burning Glass to determine the percent of unique job postings during 2021 that specified the new hire could work remotely, at least part of the time.

Data on remote working capabilities can be combined with capital investment in virtual technologies to create hybrid work models that can leverage scarce local labor while at the same time ensuring sector demand can be met. Hybrid models are generally popular with job seekers, and have the virtue of allowing employers to recruit further afield, and even internationally for selected business functions.

SOC Code	Description	Employed in Industry	Estimated Remote Capability	Percent of Occupation Family Posted Remotely
15	Computer & Mathematical	5,190	1,114	21.5%

BROADBAND

AUTOMATION INDEX

The automation index measures the potential to automate in order to leverage the productivity of scarce labor. It is presented on an index with a base of 100 – occupations with a score above 100 have a greater-than-average potential for automation, and occupations with a score below 100 have a lower-than-average potential to automate. Occupations where the automation index number is above 100 may present opportunity to think about capital investments that can partly solve labor shortage problems.

Automation seldom replaces workers 1:1. Generally, automation has the potential to leverage productivity, allowing a business to produce the same or more output with fewer people.

SOC	Description	Employed in Sector	Automation Index
35	Food Preparation & Serving Related	<10	125.9
47	Construction & Extraction	91	123.1
37	Building & Grounds Cleaning & Maintenance	14	122.5

15	Computer & Mathematical	5,190	83.4
21	Community & Social Service	0	82.3

APPRENTICEABLE OCCUPATIONS

Many occupations are apprenticeable, and businesses can work with the local workforce centers to create apprenticeship pathways that help to ensure a steady supply of workers with the skills the industry actually needs.

An apprenticeship is an industry-driven, high-quality career pathway where employers can develop and prepare their future workforce, and individuals can obtain paid work experience, classroom instruction, and a portable, nationally-recognized credential. Find information and resources on the [A/D Works! website](#).

SOC Code	Description	Employed in Industry	Percent of Total Jobs in Sector	Median Hourly Earnings	Currently Apprenticeable*

TRAINING PIPELINE

A good way to assess the ongoing strength of the training pipeline in the region is to compare number of people who completed a training program in the occupation (regional completions) with the average number of annual openings in that occupation.

TRAINING PIPELINE

If there are more openings than there are completions, then there is a shortfall. Employers may wish to work with regional workforce development centers such as Arapahoe/Douglas Works! and area educators to address shortfalls in critical occupations using a variety of strategies.

SOC Code	Description	2021 Jobs	Average Annual Openings		Regional Completions	Surplus/ (Shortfall)	Typical On-the-Job Training	Typical Entry Level Education
41-3091	Sales Representatives of Services, Except Advertising, Insurance, Financial Services, & Travel	27,983	3,643		156	(3,487)	Moderate-term	HS Diploma or Equivalent
