What is the Full Stack Development Program?

The Full Stack Development Program gives students the opportunity to gain valuable software development skills to help them stand out in their professional field. Full Stack refers to the entire “stack” of software applications and programming languages used in both front-end and back-end web development.

You’ll gain hands-on experience designing and implementing web apps using HTML, CSS, JavaScript, PHP, AJAX, REST, JSON, jQuery, Angular, Flex Slider, Parallax, Google Maps/Places, Flotr2, Google Charts, D3, Bootstrap, jQuery Mobile, Ionic and Phone Gap/Cordova. In addition, the certificate also covers web data visualization and web mobile.
